Subject: Update on the National Program

Hello All,

(b) (5)

For awareness, Amanda will be meeting with the Secretary this week (Thursday/Friday) to go over the attached slides and introduce the program and what her decisions will entail. Amanda also instructed OSR to begin work on the Proposed Program and to follow the baseline schedule in the previously provided options memo and assumptions for timelines (also attached), but (b) (5)

We have met with OEP and begun talks of how the requested additional analysis (e.g., greenhouse gas, social cost of carbon, tribal engagement, environmental justice, etc.) would be incorporated into the current drafts for the PP and DPEIS. Once we (b) (5)

I've included the current draft Table of Contents for the Proposed Program and DPEIS documents for awareness. These will be (b) (5)

(b) (5) I have also raised questions for Amanda on

(b) (5)

I will keep you updated as things progress. Please let me know if a quick call would be helpful.

Thank you,

Subject: ASLM Briefing on 258 and 259

Hello Amanda,

The team developed two separate slide decks for the ASLM level briefings prior to the meeting being scheduled next week, of which incorporates the discussion points from your briefings on each sale. To ensure that all needed information is provided to the ASLM prior to decisions made for the PNOS, I suggest providing them as supplemental materials to the briefing next week.

Susan informed me that staff is not needed to participate, but please confirm if you would like Jim, Mike, or me on the call and we can be available. We are available to assist as needed and please let us know if there are any questions.

Thank you,

(b) (5), but here's the key timing information based on the briefing we gave ASLM.

- CZMA -- The states have 60 days to review the consistency determinations and can ask for a 15-day extension, which must be granted. At the time of briefing, the plan was to send the CDs to the states on 1/13, which would have been the same day the Proposed NOS would have posted on the FR website.
- NEPA --
 - 45-day comment period on Draft SEIS
 - Final SEIS NOA cleared by the Department: April 8, 2022
 - Submittal of the Final SEIS to the USEPA and Post Final SEIS to BOEM Website: April 11, 2022
 - Publication of the 2022 GOM Final SEIS NOA: April 15, 2022
 - Required 30-day waiting period before ROD can be issued.
- Notice of Sale
 - Governors have a 60-day comment period on the Proposed NOS.
 - Final NOS and ROD publish in FR on May 26

I have updated the Milestones document to be consistent with this one, including the dates Isis sent regarding the eight OSW draft EISs. I'm still waiting on dates for the Morro Bay and California lease sale PSN and FSN. Once I have those, I will send the updated document.

Peace,

Subject: 2022 Goals and Planning

Hi there –

As mentioned we've held an hour on your calendars for next week, on Thursday, January 6 from 12-1 p.m. During this time, Steve and I would like to walk through with you your high-level goals for 2022, and specific work plans with target dates for the first 6 months of 2022. We'd like to organize the conversation around the following priority areas, and end up with a shared work plan that allows us to track progress together. We'd also like to hear suggestions for changes to our processes that could improve information sharing, help clarify expectations, and limit duplicative effort.

Implementation of the Bipartisan Infrastructure Law

America the Beautiful

Energy programs

- Managing offshore oil and gas leasing
- Meeting offshore wind goals

Regulatory efforts to improve/modernize programs

Meeting our obligations to Tribes and commitments to underserved communities

Organizational and Personnel needs

Let us know if we missed something big that we need to add. Let's plan for a read-ahead for me and Steve a week from tomorrow – so COB Jan.4 – so he and I can digest and be ready to walk through with you in detail.

Discuss more tomorrow –

Laura

Subject: [EXTERNAL] Request for information on GHG analysis in Lease Sale 258 DEIS
Date: Thursday, January 20, 2022 9:43:30 AM
Attachments: [image001.png](#)

This email has been received from outside of DOI - Use caution before clicking on links, opening attachments, or responding.

Walter,

On December 13, API submitted comments to BOEM on the Draft Environmental Impact Statement (DEIS) for the Cook Inlet Lease Sale 258. We do not contest BOEM's decision to include a quantitative analysis of the impacts of foreign oil consumption and the resulting GHG emissions under the "No Action" alternative; however, API's efforts to fully understand the methodologies and assumptions BOEM used in its GHG analysis were unsuccessful. Our efforts to validate the analysis were challenged by both a lack of transparency in fundamental assumptions (including the assumed "single generic emissions factor") and by the DEIS' reliance on data that was neither complete nor publicly available.

To remedy this, API requests the Offshore Environmental Cost Model outputs used as inputs to the Market Simulation Model to estimate the Lifecycle Greenhouse Gas Emissions in the DEIS for Cook Inlet Lease Sale 258. Specifically, API requests the source data or data runs used to calculate the estimates listed in Table 4-10: Substitution of Other Energy Sources Under the No Action Alternative found on page 45 of the DEIS. API also requests the data inputs used to calculate the emissions estimates on Table 4-11: Domestic Production and Consumption Lifecycle GHG Emissions found on page 47 of the DEIS, and Table 4-12: GHG Emissions from Shift in Foreign Consumption Under the No Action Alternative (when compared to the Proposed Action) also found on page 47 of the DEIS.

Thank you for considering our request. A fundamental understanding of BOEM's GHG analysis methodology will be increasingly important as additional lease sales and programmatic environmental analyses are undertaken. Should you have any additional questions, please contact me.

To: Cruickshank, Walter <Walter.Cruickshank@boem.gov>
Cc: hopkinsh@api.org <hopkinsh@api.org>; Cole W. Ramsey <RamseyC@api.org>
Subject: [EXTERNAL] Request for information on GHG analysis in Lease Sale 258 DEIS

This email has been received from outside of DOI - Use caution before clicking on links, opening attachments, or responding.

Walter,

On December 13, API submitted comments to BOEM on the Draft Environmental Impact Statement (DEIS) for the Cook Inlet Lease Sale 258. We do not contest BOEM's decision to include a quantitative analysis of the impacts of foreign oil consumption and the resulting GHG emissions under the "No Action" alternative; however, API's efforts to fully understand the methodologies and assumptions BOEM used in its GHG analysis were unsuccessful. Our efforts to validate the analysis were challenged by both a lack of transparency in fundamental assumptions (including the assumed "single generic emissions factor") and by the DEIS' reliance on data that was neither complete nor publicly available.

To remedy this, API requests the Offshore Environmental Cost Model outputs used as inputs to the Market Simulation Model to estimate the Lifecycle Greenhouse Gas Emissions in the DEIS for Cook Inlet Lease Sale 258. Specifically, API requests the source data or data runs used to calculate the estimates listed in Table 4-10: Substitution of Other Energy Sources Under the No Action Alternative found on page 45 of the DEIS. API also requests the data inputs used to calculate the emissions estimates on Table 4-11: Domestic Production and Consumption Lifecycle GHG Emissions found on page 47 of the DEIS, and Table 4-12: GHG Emissions from Shift in Foreign Consumption Under the No Action Alternative (when compared to the Proposed Action) also found on page 47 of the DEIS.

Thank you for considering our request. A fundamental understanding of BOEM's GHG analysis methodology will be increasingly important as additional lease sales and programmatic environmental analyses are undertaken. Should you have any additional questions, please contact me.

Here's the API request I mentioned this morning. I've asked Jim K., Megan and Jill for their thoughts, and will keep you informed.

Subject: [EXTERNAL] Request for information on GHG analysis in Lease Sale 258 DEIS

This email has been received from outside of DOI - Use caution before clicking on links, opening attachments, or responding.

Walter,

On December 13, API submitted comments to BOEM on the Draft Environmental Impact Statement (DEIS) for the Cook Inlet Lease Sale 258. We do not contest BOEM's decision to include a quantitative analysis of the impacts of foreign oil consumption and the resulting GHG emissions under the "No Action" alternative; however, API's efforts to fully understand the methodologies and assumptions BOEM used in its GHG analysis were unsuccessful. Our efforts to validate the analysis were challenged by both a lack of transparency in fundamental assumptions (including the assumed "single generic emissions factor") and by the DEIS' reliance on data that was neither complete nor publicly available.

To remedy this, API requests the Offshore Environmental Cost Model outputs used as inputs to the Market Simulation Model to estimate the Lifecycle Greenhouse Gas Emissions in the DEIS for Cook Inlet Lease Sale 258. Specifically, API requests the source data or data runs used to calculate the estimates listed in Table 4-10: Substitution of Other Energy Sources Under the No Action Alternative found on page 45 of the DEIS. API also requests the data inputs used to calculate the emissions estimates on Table 4-11: Domestic Production and Consumption Lifecycle GHG Emissions found on page 47 of the DEIS, and Table 4-12: GHG Emissions from Shift in Foreign Consumption Under the No Action Alternative (when compared to the Proposed Action) also found on page 47 of the DEIS.

Thank you for considering our request. A fundamental understanding of BOEM's GHG analysis methodology will be increasingly important as additional lease sales and programmatic environmental analyses are undertaken. Should you have any additional questions, please contact me.

Thank you, Walter.

I would need to confirm if the data that we used in our analysis is able to be released publicly. If it is not, then I do not believe we can provide them a copy of the data or any other aspect of their request. If it is, then I would provide them a copy of the raw data to do what they want with, but the model inputs/outputs and associated interpretative products would not be releasable.

Thank you,

Walter,

The GLEEM info is already publicly available on our website. API may not realize it since it was not called GLEEM until after the Cook Inlet sale. See here:

<https://www.boem.gov/environment/greenhouse-gas-life-cycle-energy-emissions-model>.

As Megan notes, the remainder of the request deals with OSR/ECON data.

Thanks,

Jill

Amanda-

Thanks for reaching out. I made some updates in the "Tough Q&A/Talking Points" document we provided for her first confirmation hearing – other OCL folks (Drew, Morgan, Salotti) are looking at this today so it is an evolving document. We haven't yet given to her so I've attached a copy for you to review. This is in "track changes" so you can see what's new or revised since September. Two areas where I'd love the benefit of your sharp eyes are 5 year plan and offshore wind stuff.

Please let me know if you have revisions.

Plan is to give it to her tomorrow.

Thanks,
Matt

Hi Ericka,

I think it would save time if you entered it. I commented previously, and have already read this version, so you can leave me off the surnaming chain.

Thanks,
Walter

Hi Amanda,

Ericka sent it externally via DTS directly to the people you specified (Travis, you, Steve, and Laura) - it generate an email but it's from DTS.

Ericka also sent it to their correspondence contacts and requested that they route it directly to them in DTS - Ericka confirmed this has been done. I'll note for SOL it was sent to Karen and Travis concurrently. For ASLM it was sent to Mike, Steve and Laura. I called Mike this morning and told him it should go directly to Steve and Laura so he'll have Pam remove it from his inbox.

Thanks,
Isis

Just thought it made sense to pull this group together for a quick call to make sure we are on the same page re: impacts from preliminary injunction in *Louisiana v. Biden*. Just feel it would be helpful

to have a BOEM global idea of its impact.
The DOI SOL boiled it down to the statement below.

Subject: LS 258 talking points

Will there be a Lease Sale 258 in the Cook Inlet before June 30?

- There have been court decisions that impact this sale and we are evaluating their impact.
- A judicial decision in Louisiana blocked all agencies from using social cost of carbon in decisions, and Lease Sale 258 relied on that work.
- Another recent decision has stayed that ruling, and we will follow legal guidance on how to proceed with our analysis for Lease Sale 258 to ensure decision-making is legally sound and uses the best available science, Indigenous traditional ecological knowledge, and public input.
-
- The Department will continue to implement the current National OCS Oil and Gas Leasing Program through June 30, 2022, and will exercise the authority and discretion provided under law to conduct leasing in a manner that fulfills the Department's legal responsibilities under the Outer Continental Shelf Lands Act.
-
- The Secretary has discretion to hold or not hold sales scheduled in a five-year program, and no decision has been made regarding Lease Sale 258, or the other lease sales remaining in the current program.

Hi Amanda – I gave the Alaska Governor's Office a courtesy call (had to leave a message) and spoke with AK DNR Commissioner's Office to give them a heads up. They appreciated the courtesy call and were going to pass the information along.

I also let the Alaska BOEM team know so we should be good on this end.

Have a good evening!

Team. Please see the below statement, I've discussed this with many of you. Thank you

The Department shared the following update today. Due to lack of industry interest in leasing in the area, the Department will not move forward with the proposed Cook Inlet OCS oil and gas lease sale 258. The Department also will not move forward with lease sales 259 and 261 in the Gulf of Mexico region, as a result of delays due to factors including conflicting court rulings that impacted work on these proposed lease sales.

Update: Status of OSR Surnaming Packages:

Document	DCN	Current Reviewing Office	Date Document Received	Date Document Scheduled to Move to Next Office	Additional Information
Restricted Joint Bidders List	OEM0004360	SIO-REGS	4/18/22		(b) (5)
Cook Inlet 258 Proposed Notice of Sale	OEM0003146	DIR	12/14/21		It is highly unlikely that BOEM will be able to complete the required steps to hold this sale prior to expiration of the 2017-2022 National OCS Program on June 30, 2022.
GOM 259 Proposed Notice of Sale	OEM0003564	ASLM	12/20/21		It is highly unlikely that BOEM will be able to complete the required steps to hold this sale prior to expiration of the 2017-2022 National OCS Program on June 30, 2022.
Proposed Program Document (analysis only)	OEM0004231	DIR/SOL	04/26/22 (DIR), 01/24/22 (SOL)	TBD	Outside of DTS due to sensitive nature. DTS file does not contain documents. Most of analytical portion of the Proposed Program document is with Directorate for surnaming, but new analytical guidance was received in early May, so the team is rewriting some document sections.
G&G Bluebook Update	OEM0004417	OSR Front Office	4/15/22		
Response Letter to Governor Dunleavy	OEM0004175	OSR (for potential edits)	1/4/22		Waiting on guidance before proceeding
Response Letter to Governor Ivey	OEM0004185	DIR	1/19/22		With Director for signature

Status of OSR – Public Affairs Coordination

NR per scope agreement with requester

NR per scope agreement with requester

Leasing Policy and Management Division (Brant Cole, Acting)

Update: Development of the New National OCS Oil and Gas Leasing Program: Most of the analytical portion of the Proposed Program document is currently with Directorate for surnaming. Additional analytical guidance was received from the Deputy Secretary in early May, so some portions of the document are still being written and will need review. Secretarial guidance on the Proposed Program is needed before BOEM can finalize the document and related outreach plans and other materials prior to publication.

No Change: Restricted Joint Bidder List (RJB) Spring 2022 (OEM0004360): BOEM is required to publish a list of Major Producers every six months and inform them they are prohibited from bidding jointly with any other producer on the List. (b) (5)

No Change: Oil and Gas Lease Sales:

- **Cook Inlet Lease Sale 258 (OEM0003146):** It is highly unlikely that BOEM will be able to complete the required steps to hold this sale prior to expiration of the 2017-2022 National OCS Program on June 30, 2022.
- **GOM Lease Sale 259 (OEM0003564):** It is highly unlikely that BOEM will be able to complete the required steps to hold this sale prior to expiration of the 2017-2022 National OCS Program on June 30, 2022.
- **GOM Lease Sale 261:** It is highly unlikely that BOEM will be able to complete the required steps to hold this sale prior to expiration of the 2017-2022 National OCS Program on June 30, 2022.

Risk Management Policy Group (Eric Turner)

NR per scope agreement with requester

Leasing Policy and Management Division (Brant Cole, Acting)

Update: Development of the New National OCS Oil and Gas Leasing Program: Most of the analytical portion of the Proposed Program document is currently with Directorate for surnaming. Additional analytical guidance was received from the Deputy Secretary in early May, so some portions of the document are still being written and will need review. The team is also updating stale information throughout the document so that it will be current as of May 2022. Secretarial guidance on the Proposed Program is needed before BOEM can finalize the document and related outreach plans and other materials prior to publication.

No Change: Restricted Joint Bidder List (RJB) Spring 2022 (OEM0004360): BOEM is required to publish a list of Major Producers every six months and inform them they are prohibited from bidding jointly with any other producer on the List. (b) (5)

Update: Oil and Gas Lease Sales: On May 11, 2022, the Department announced the cancellation of Cook Inlet Lease Sale 258 (OEM0003146), GOM Lease Sale 259 (OEM0003564), and GOM Lease Sale 261.

Subject: S.4228 Lease Now Act of 2022

Good morning:

This Bill dropped on May 17, however the Bill text was just published (attached). Introduced by Sen. Barrasso (R-WY) this Bill would require BOEM to:

- Conduct all lease sales in the 2017-2022 five year program.
- Not later than 30 days after the enactment of the Bill conduct Lease Sale 257.
- Mandate a final 2022-2027 five year program by June 30, 2022 by limiting comment periods and waiving requirements under subsections (c) and (d) of Section 18 of OCSLA that would delay final approval.
- Mandate 10 lease sales in the Gulf of Mexico and Alaska in the new five year program.
- Limit the royalty rate to not more than 18.75%.
- Require that 36 months after the first lease sale of a 5 year program, planning for a new 5-year program shall begin.
- Mandates each new 5 year program shall be approved no later than 180 days before the expiration of the last and shall contain a minimum of 5 lease sales.
- Prohibits Executive Branch administrative actions that could delay or inhibit the development of oil and gas leasing without Congressional approval.

This Bill also addresses onshore oil and gas leasing.

OCA will continue to monitor this Bill as it is now with the Senate Energy and Natural Resources Committee.

V/r

Update: Development of the New National OCS Oil and Gas Leasing Program: Most of the analytical portion of the Proposed Program document is currently with the Directorate for review. Additional analytical guidance was received in late May, so some portions of the document are still being written and will need review. The working surnaming schedule is presented below. Public meeting planning is also underway with in-person meetings anticipated around late August to mid-September. Virtual public meetings would occur in late September.

Proposed Program (PP) Surnaming Schedule

Proposed Program Overall Publication - Surnaming Schedule	
Decision Received	May 23, 2022
Craft Decision Language	May 23 – June 3*
SOL	June 3 – June 9
Reconcile SOL Comments	June 10 – June 13
OSR/OEP Chiefs and Directorate	June 14 – June 16
SOL – Final review	June 17 – June 20
ASLM	June 21 – June 24
Secretary's Office	June 25 – June 28
PP and dPEIS Announcement**	June 28, 2022
PP and dPEIS <i>Federal Register</i> Notice Published in <i>FR</i>	June 30, 2022
2017-2022 National OCS Program expires	June 30, 2022
Comment Period (90 Days)***	June 30 – September 28

*Decision section of Proposed Program, *Federal Register* Notice, letters to Governors, and several Federal agencies will follow analytical portion of the Proposed Program document once the decision language is crafted. They will catch up prior to final SOL sign off.

** Items that need to be completed prior to announcement and publication: Proposed Program document, PEIS, Letters to Governor's, *Federal Register* Notice, Economic Methodology paper, communications plan (Q&A's, talking points, outreach strategy, webpage updates).

***Public meetings will be scheduled during the comment period.

No Change: Restricted Joint Bidder List (RJB) Spring 2022 (OEM0004360): BOEM is required to publish a list of Major Producers every six months and inform them they are prohibited from bidding jointly with any other producer on the List. (b) (5)

New: FOIA Requests – NYU Institute for Policy Integrity (IPI) BOEM-2022-003611 and DOI-BOEM-2022-003462: The Economics Division received two FOIA requests from IPI for files related to modeling. The first requested modeling of greenhouse gas emissions and their social costs for Cook Inlet Lease Sale 258. This request is nearly identical to a request made by API in March of 2022. The Economics Division expects to provide the responsive documents to the FOIA office by COB May 25, 2022. The second requests all files related to modeling of net benefits and hurdle prices for the as-yet unpublished National Program. The Economics Division is coordinating with the FOIA office on this request as it is for analysis that is still subject to change and unpublished.

Update: FY 2022-2026 DOI Strategic Plan

BOEM is supporting the DOI Strategic Plan in Strategic Goal 3: *Sustainably balance the use of resources while supporting communities and the economy*. The below table notes which performance goal areas BOEM will report performance measures and the areas where we will utilize evidence narratives:

Strategic Objective 3.1: Future energy needs will be increasingly met through renewable and sustainable sources

	Draft Performance Goal	Performance Measure	Evidence Options
3.1.2	The public benefits from an electrical grid that has access to 30 GW of offshore wind renewable energy capacity by 2030 (Agency Priority Goal).	(b) (5)	

Strategic Objective 3.2: Current energy needs are met through balanced resource use

	Draft Performance Goal	Performance Measure	Evidence Options
3.2.1	Customers reliant on conventional or renewable energy resources have reliable energy to meet their needs.	(b) (5) Finalize the National OCS Oil and Gas Leasing Program, (b) (5)	
3.2.2	(b) (5)	(b) (5)	
3.2.3	(b) (5)		(b) (5)

[2/16/21 11:49 AM] Storzer, Mark A

Forgot to include the language: BOEM announced the cancellation of the comment period and the live public hearings. A Federal Register Notice to Withdraw the Public Review Period has been prepared and is currently in the surname process. Thanks
